

Bringing you the Charm of Kagoshima Kurobuta

(Kagoshima Black Berkshire Pork)

Exploring the Secret of Deliciousness

Characteristic of Kagoshima Kurobuta:

- ❖ Meat fibre is very fine and soft.
- ❖ Meat has a rich lustre and is resilient with high water retention.
- ❖ Sealed-in flavour, non-sticky and light
- ❖ Since flavour-inducing amino acid content is high, it produces an especially delicious and refined taste.
- ❖ There is so meat odour.
- ❖ Body hair is black with white patches on six areas (the four limbs, nose bridge, and tip of the tail.)

Berkshire Pig adapted to Kagoshima's climate and have since continued to be bred throughout the Prefecture over the years.

Kagoshima Wagyu

(Japanese Black Cattle)

Greatest Wagyu Production Region in Japan

Bred in Kagoshima and raised with the safest feed for a period of some 3 years, black cattle beef is processed under the utmost sanitary conditions in Kagoshima and then delivered to consumers.

A strict commitment to taste and safety defines the raising of Kagoshima Wagyu, whose delicate and finely-textured flesh and well-balanced marbling are highly praised

Each cattle undergo the strictest sanitation and safety measures at each stage from feed-making to breeding, meat processing, and shipment in order to deliver safe and reliable Kagoshima Wagyu.

Kagoshima Wagyu are raised stress-free with superior farming technique and care using a feed system that is perfectly matched to the southern country climate.

We wish you a warm welcome and hearty respect as we look forward to your continual patronage
